Work Experience

Front-End Developer (React)

December 2024 until now (9 months)

SamainSoft

Iran Mashhad

- Developed and maintained web-based ERP systems using modern versions of Next.js (with App Router) and React.
- Implemented Micro Frontend architecture in modular projects to enhance scalability and increase flexibility across development teams.
- Extensive experience working with Monorepo structures and managing multi-package codebases using tools such as Turborepo.
- Designed and implemented Progressive Web Applications (PWAs) to improve accessibility and user experience across various platforms.
- Proficient in using Docker for development, deployment, and environment isolation, with close collaboration with DevOps teams.
- Deep understanding of modern frontend architectures and active participation in technical decision-making to improve project quality and performance.

Front-End Developer (React)

May 2024 until now (1 year and 4 months)

asacoinc

Iran Mashhad

- Led the frontend team in the development and optimization of customer and admin dashboards for a large-scale cryptocurrency exchange, using React and Next.js, with a strong focus on performance, security, and user experience.
- Designed and implemented a fully dynamic Telegram Mini App using Next.js, functioning as a Telegram Bot capable of rendering customizable mini-apps for users based on backend data.
- Handled complete user data retrieval and management via Telegram APIs to enable authentication, personalized user experiences, and a wide range of interactions within the Telegram environment.
- Oversaw and guided the development team through all project phases — from requirements analysis and software architecture design to implementation and testing.
- Built a scalable architecture using the latest versions of modern libraries and technologies, optimized for high-traffic environments requiring stability and scalability.
- Collaborated closely with backend and product teams to align data structures and enhance the overall user experience flow.

Front-End Developer (React)

July 2024 until December 2024 (5 months)

Exir

Iran Mashhad

- Led the frontend development team and directed key projects using React and modern versions of Next.js (including v14+ with App Router).
- Designed and implemented frontend architecture based on best software engineering practices, such as Clean Architecture and Modular Design.
- Developed and optimized modern web applications with a focus on performance, SEO, and user experience, utilizing cutting-edge technologies like NextUI, TailwindCSS, and TypeScript.
- Collaborated closely with backend, UI/UX, and DevOps teams to ensure seamless and efficient product delivery.
- Responsible for mentoring, technical guidance, and code reviews to enhance development quality and maintain adherence to coding standards across the team.

Front-End Developer (React)

June 2024 until August 2024 (2 months)

Arman tosee saina

Iran Mashhad

- Developed an internal organizational dashboard using React, leveraging modern libraries and up-to-date tools.
- Learned and practically implemented integration with GraphQL APIs via Apollo Client, with a focus on optimizing queries/mutations and effective cache management.
- Designed and fully implemented a web-based chat and ticketing system using Socket.IO to enable real-time communication.
- Applied the latest design patterns and library versions to build a scalable, maintainable,

- and efficient architecture.
- Worked closely with backend and product teams to analyze requirements and develop interactive, user-centric features.

Front-End Developer

February 2024 until May 2024 (3 months)

SANA

Iran Mashhad

- Contributed to the development of external client projects, including a mobile attendance tracking application.
- Built mobile applications using React Native (via Expo) with full proficiency in the build, deployment, and project structuring processes.
- Developed parallel applications using Flutter, gaining expertise in Dart and key libraries such as Dio, GetX, and other popular tools within the ecosystem.
- Conducted technical evaluations and comparisons between React Native and Flutter to determine the optimal choice for different projects.
- Participated in UI/UX design processes and ensured accurate implementation of designs, adhering to performance standards and user experience best practices.

Front-End Developer

December 2020 until February 2024 (3 years and 2 months)

pazh

Iran Mashhad

Education

Bachelor: Software engineering

2016 - 2020

Islamic Azad university

GPA : 14

Training Courses

Course 14 front end

<https://trainingsitedesign.ir/>

Course Duration:

2023

Languages

English | Basic

Software

Html & CSS | Advanced

JavaScript | Advanced

GIT | Advanced

Rest API | Advanced

React | Advanced

TypeScript | Advanced

Next.js | Advanced

React Native | Intermediate

Flutter | Intermediate

About Me

I am interested in programming. I always liked new things learn. Programming gives me the opportunity to be creative to show I love solving new challenges. Also looking for I am in a position where I can use my skills and grow And to continue.
